

## Match Report

### Dorset Golf Captains Mixed Greensome

### At Wareham Golf Club on Friday 19 July 2019

Weather Report It was miserable even abysmal. driving wind and rain throughout the round. Everyone in wet gear, umbrellas up and heads down. Why do we play this game? Is it Summer or just the UK having a bad day! Brexit? Perhaps.

Course Report Fairways were parched due to recent long period with no rain. Water lying in puddles in places. Greens were surprisingly good, lush and true.

Matches There were 20 pairs (10 x 4 balls playing) Format St Andrews Grewsome off 50% combined handicap. Mens SI

Yellow Tees. For men and Ladies off the RED First Tee 1000hrs

Note Stewart Rennie was taken ill before the event started with a heavy nosebleed and had to withdraw from the event and depart for treatment. I now know that he has now recovered and apologised for being unable to play. Stewart many thanks for your apology which was neither needed nor necessary. Your health and well being was far more important to all those there.

Despite the weather there was much to celebrate that day. Getting back into the warmth and dry Clubhouse was an achievement in which we were all much relieved. Add to this was Eddie Galjaard's birthday celebrations with 2 cakes having been made to mark the event! Very few candles on the cake as it was considered too great a fire risk. In addition, warm and hearty congratulations were expressed to Jane Best on her forthcoming marriage to David and wishing them good health and happiness in their shared future life.

We thank Peter Foster for organising the day, supplying the cakes and setting up the event. It was a fun and happy day for all despite the challenge and test of ignoring the weather. We

need and would like to see more pairs entering in future years. Come on you Captains, enter next year and have some fun.
